Expert Risk Management Powered by People,  
Technology & Leading Safety Solutions

Predict. Prevent. Protect.

[www.amtrustfinancial.com](http://www.amtrustfinancial.com)

# Why Risk Control Matters

Risk is everywhere—economic uncertainty, regulatory complexity, and workplace hazards can disrupt operations and impact profitability. AmTrust Risk Control helps businesses **anticipate risks, implement proactive measures, and build resilience** through a combination of expertise, technology, and tailored solutions.

## Our Promise

### Our People Will Help You Predict, Prevent & Protect

Our team of industry specialists combines deep expertise with cutting-edge technology to help you reduce your total cost of risk.

We offer:

- Onsite Consultations
- Safety Training
- Safety Program Evaluations
- Virtual Risk Management Tools

# Comprehensive Assessments

## Comprehensive On-Site & Virtual Risk Control Visits

Flexible Options. Consistent Expertise. Maximum Impact.

At AmTrust Risk Control, we understand that every organization has unique needs when it comes to workplace safety and risk management. That's why we have both on-site and virtual risk control visits, without compromising on quality or effectiveness.

### On-Site Risk Control Visits

Our on-site visits provide direct, hands-on evaluation from experienced consultants. This face-to-face approach allows for:

- In-depth insight into workplace conditions and safety practices.
- Immediate feedback and tailored recommendations.
- Collaborative problem-solving to address hazards and reduce risk.

By walking through your facility, observing processes, and engaging with your team, we help identify vulnerabilities and implement practical solutions that strengthen safety and compliance.

### Virtual Risk Control Visits

Our **Virtual+ Risk Control Visits** use secure mobile technology to conduct **real-time remote inspections**. Consultants capture detailed information and photos to assess exposures and controls—ideal for remote or hard-to-access locations.

Benefits of Virtual+ Visits:

- **Flexible Scheduling:** Fit inspections into your timeline.
- **Less Disruption:** Keep operations running smoothly.
- **Rapid Deployment for Emerging Risks:** Enables quick response when new hazards or compliance issues arise.

## How Virtual+ Works

1. We schedule an appointment and review your operations and safety concerns.
2. On the day of the visit, you receive a secure link via text or email.
3. Click the link to launch the session—no extra steps required.
4. Our consultant guides you through the process, directing camera views and capturing photos.
5. All data is instantly uploaded to our platform for analysis and recommendations.

No matter the method, our team is committed to helping you maintain a safe and compliant workplace.

# Training & Resources

## Workplace Safety and Training Resources

Access over 800 streaming videos in English and Spanish, covering:

- Fire prevention
- Slip and fall awareness
- Ergonomics
- Safety culture building

# Technology-Driven Solutions

## Smart Risk Scoring for Better Protection

Spot trends before they become costly claims. Our advanced tools provide:

- Dynamic visualizations
- Detailed data reporting
- Actionable insights to reduce exposure and strengthen your bottom line

## ErgoProtect: AI-Powered Ergonomic Risk Control

### Transforming Workplace Safety Through Intelligent Assessments

Modern workplaces face increasing ergonomic challenges that can lead to injuries, lost productivity, and rising costs. **ErgoProtect**, powered by TuMeke's advanced AI technology, revolutionizes how organizations measure and reduce workplace risk factors—delivering real-time insights without the need for on-site visits.

## Real-Time Ergonomic Assessments

Our risk control consultants can now perform **remote ergonomic evaluations** instantly. Leveraging mobile technology and AI, ErgoProtect analyzes a worker's posture and movements by breaking down body parts into key zones—trunk, neck, lower arm, and upper arm. This enables consultants to:

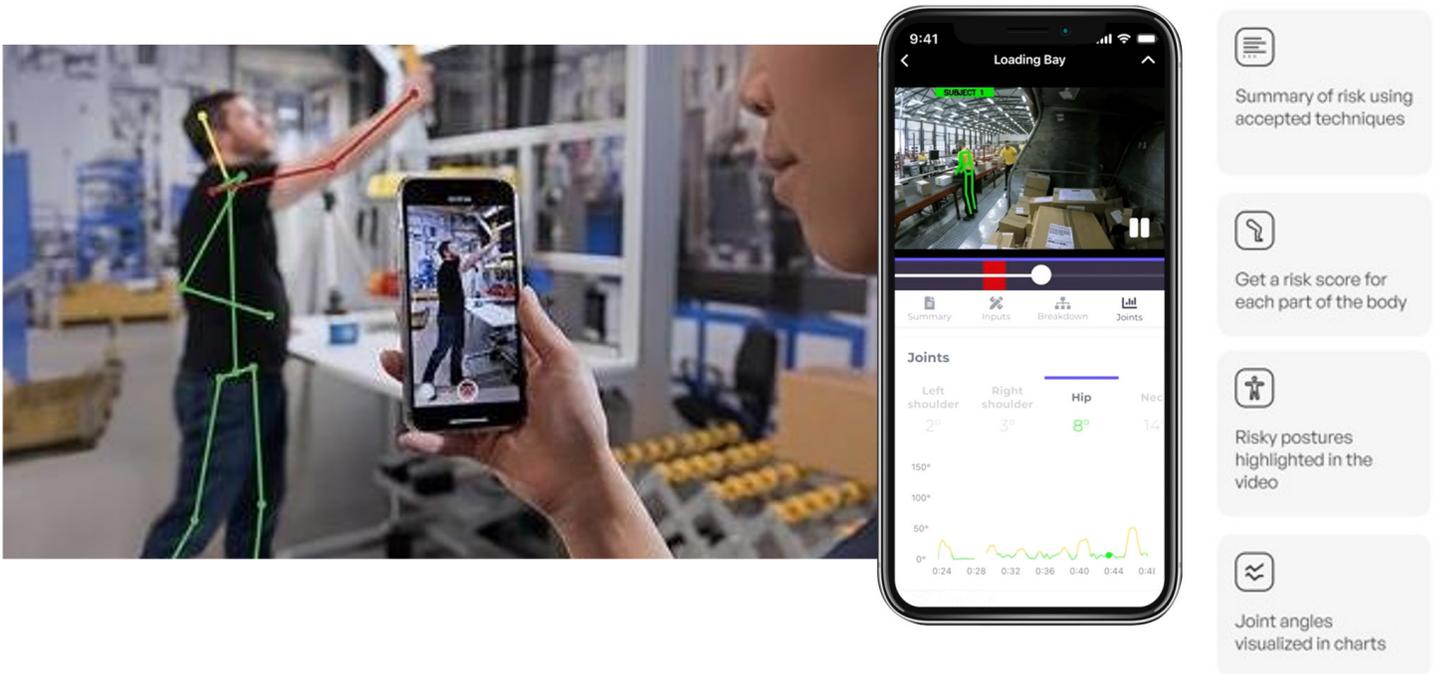

- Identify short-term and long-term corrective actions.
- Prevent costly workplace injuries before they occur.
- Provide actionable recommendations quickly and efficiently.

**No travel. No delays. Just faster, smarter risk control.**

## How It Works

1. **Capture:** Clients record a short video of their work processes using a smartphone.
2. **Upload:** A secure link is provided for video transfer.
3. **Analyze:** Our consultants upload the video to TuMeke's AI platform for instant analysis.
4. **Act:** We schedule a consultation to review findings and implement corrective measures.

In just minutes, a detailed ergonomic risk profile is developed and a risk consultant can meet with you to review actionable strategies to reduce exposure.

## Why ErgoProtect?

- **Speed:** Assessments completed in real time.
- **Accuracy:** AI-driven analysis ensures precision.
- **Convenience:** No on-site visits required.
- **Impact:** Reduce injuries, improve productivity, and lower costs.

ErgoProtect isn't just a tool—it's a smarter way to protect your workforce and strengthen your risk management strategy.

# Strategic Partnerships

Risk management doesn't happen in isolation—it thrives through collaboration. That's why we've built a network of **strategic partnerships** designed to strengthen your risk control programs and deliver measurable value. These partnerships provide **exclusive discounts, specialized services, and innovative solutions** that help policyholders reduce risk, improve compliance, and enhance workplace safety.

## Our Partner Network

### Shoes for Crews

Workplace safety starts from the ground up. Shoes for Crews offers comfortable, slip-resistant footwear solutions that reduce accidents and save money.

**Policyholder Benefit:** Discount on slip-resistant footwear.

### IntelliCorp

Employment verification is critical for reducing hiring risks. IntelliCorp provides comprehensive screening services—criminal, prior work history, and education—to help employers minimize risk and maintain workforce integrity.

**Policyholder Benefit:** Discounted package pricing.

### Chemwatch

Chemical safety is non-negotiable. Chemwatch is a global leader in chemical management solutions, helping organizations maintain compliance and protect employees.

**Policyholder Benefit:** Discount on chemical safety management services.

### Evolved Safety

Training is the cornerstone of risk prevention. Through Evolved Safety, policyholders receive discounts on OSHA 10 and OSHA 30 online training courses, plus access to immersive VR safety training.

**Policyholder Benefit:** Discount on OSHA training.

### OneSource

Environmental, health, and safety risks require specialized expertise. OneSource delivers end-to-end solutions—from industrial hygiene to safety program development—ensuring compliance and operational resilience.

**Policyholder Benefit:** Exclusive access to comprehensive EHS programs.

### Nonprofit Risk Management Center

For nonprofits, risk management must align with mission and culture. This partnership enables tailored risk policies that fit your organization's unique environment—quickly and effectively.

**Policyholder Benefit:** Customized risk management frameworks.

## Abuse Prevention & MinistrySafe

Protecting vulnerable populations is paramount. These programs provide robust frameworks for sexual abuse prevention, ensuring safe environments for children and those who serve them.

**Policyholder Benefit:** Access to comprehensive prevention systems.

## Slip Safe

Slips and falls are among the most common workplace injuries. SlipSafe Tile™ products increase surface friction, reducing accidents and liability.

**Policyholder Benefit:** Discount on SlipSafe Tile™ products.

## Why It Matters

Our partnerships go beyond discounts—they deliver **real-world impact**:

1. Lower incident rates and claims.
2. Improved compliance with regulatory standards.
3. Enhanced employee safety and confidence.
4. Cost savings that strengthen your bottom line.

## Your Advantage

By leveraging these partnerships, you gain access to **best-in-class solutions** that complement our risk control capabilities. Together, we help you build a safer, stronger, and more resilient organization.

# Industry Resources

## Tailored Insights. Targeted Solutions.

Risk management isn't one-size-fits-all. Every industry faces unique challenges, regulatory requirements, and operational complexities. That's why we go beyond generic frameworks—we curate resources and strategies specifically for your sector.

Explore:

- Sample safety programs
- Best practice guides
- Tip sheets

## Consultative Services for Large Insureds

For organizations with complex operations and elevated exposures, our Strategic Risk Team team delivers high-touch, strategic support tailored to your unique needs.

- Dedicated Risk Consultants
- Collaborative engagements
- Scalable solutions for multi-site operations
